What You Need to Know About the Rules and Special Features

3D European Roulette online follows the traditional rules of roulette, players win by predicting where the roulette ball will land in the roulette wheel after each spin. If players have predicted the spin correctly they will receive a payout dependent on the bet placed. Players can access details on all bet payouts by clicking on menu bar and selecting 'Pay Table'.

With a very high RTP of 97.3%, and an even higher RTP of 98.65% if players only place Even Money bets, 3D European Roulette is a game that should appeal to players of all abilities. With the betting limits set at £0.5 – £1,000, this also allow for players of all abilities to play it as safe or risky as they would like.

Iron Dog has also made several other design developments in 3D European Roulette that allow for an even more enjoyable game play. Players will notice that the game view changes when a pressing spin or clicks on the racetrack. This change in view creates a sense of dynamism which in turn brings another level of excitement to the game play.

3D European Roulette online also offers some unique special features such as the inclusion of a Racetrack. The Racetrack allows players to place special bets such as Neighbour bets, Voisons, Orphelins and Tiers with ease. As with the main roulette board, tiles included in each bet are highlighted when players roll their mouse across them in order to clearly indicate what is included in each special bet.

Another special feature included in 3D European Roulette online is the ability to place repeat bets. The repeat bet option appears straight after the previous spin has been completed. Players are given two options for repeat bets, players can choose to either repeat the previous bet once or repeat it twice. This is a great option for players who want to up the pace and are happy with an established betting format.

For players wanting to up the pace even more enabling fast-play allows players to skip the animation of the ball landing in the wheel and instead the ball will just appear immediately where it would have landed at the end of the spin.
